

# Four Benefits of Ductless Mini Splits

When it comes to heating and cooling solutions for your Pittsburgh area home, it's important to find the equipment that will provide the most long-term benefits to your comfort and energy use. If you are considering ductless mini split installation or heat pumps for your home, here are the benefits to consider:

## HEATING AND COOLING IN ONE

Offers two comfort modes

## EFFICIENT OPERATION

Save an estimated \$500-\$1000 per year thanks to efficient heating and coolings

## TARGETED COMFORT

Ductless mini splits can be installed directly into the room that needs heating and cooling

## WHOLE-HOME ZONED CONFIGURAITONS

Up to 5 indoor air handlers can connect to a single outdoor compressor for separate comfort zones

Whether you are looking for a supplemental ductless mini split HVAC solution, or you are thinking about ductless mini splits for the whole house, Calfo Heating and AC is here to help. Schedule mini split installation, repair, or maintenance with Calfo and get the red carpet treatment!
